## Tailored Lateral Back

The Fenlake Independent Quad-Motor Riser Recliner is designed to offer exceptional comfort from head to toe. Featuring independent control, from a seated position as the legs raise, the split ottoman footrest opens up & extends to give greater & longer hip to heel support. The padded Tailored Lateral Back design with powered lumbar support & headrest, maximises the comfort level for the head, neck & lower back. The nine button handset has a 'Home Button' function which returns the chair to the standard seated position. The handset includes a practical USB port to charge a mobile phone or tablet. This Riser Recliner boasts useful left & right hand magazine & control pockets.
